

EDUCATION

Anoka Technical Vocational Institute, Anoka, Minnesota
Electrical Energy Design for Construction

EMPLOYMENT HISTORY

1987-Present: Gausman & Moore Associates, Inc.

Steve has a well-deserved reputation for being a solid, consistent performer who has earned positions of increasing responsibility throughout his tenure with Gausman & Moore. He has an indispensable range and depth of experience and contributes significantly to every project team on which he is a member.

In his current role, Steve manages projects in the military, retail, institutional, commercial, industrial and educational sectors. Overall responsibilities include lighting and load calculations, layout and circuiting of light and power floor plans, creating computer generated schedules, project management, specification writing, and planning and design.
