Gausman & Moore Touts a Rock-Solid Sustainable Design Team With Twenty LEED[®] Accredited Professionals

St. Paul, Minnesota: Gausman & Moore announced today that it now has twenty LEED[®] Accredited Professionals on its mechanical, electrical, and plumbing (MEP) design team.

“Gausman & Moore has always been sensitive to the environment,” said Jim Keller, P.E., Sustainable Design Partner at Gausman & Moore, “and we are pleased to be among the mechanical, electrical, plumbing firms architects and owners look to most for expertise in MEP sustainable design.”

The firm’s sustainable design portfolio includes over 50 projects. Forty were designed to meet U.S. Green Building Council LEED[®] standards and include LEED[®] Certified, Silver, Gold, and Platinum level projects. The firm’s sustainable design experience includes education, office, manufacturing, retail, federal and local government, and mixed use.

Gausman & Moore Associates, Inc., based in St. Paul, Minnesota, has branch offices in Duluth, Minnesota and Los Angeles, California. The 74-year-old firm provides mechanical, electrical, plumbing (MEP), technology, and lighting design services to institutions, corporations, and U.S. and local government bodies throughout the United States.
